OVERVIEW

The following document details the current population of cetaceans (whales & dolphins) held in the United States and Canada.

As of June, 2011 a total of **597 known individuals** are exhibited from the following species: Belugas (*Delphinapterus leucas*), Bottlenose Dolphins (*T. truncatus*, *T. gilli*, & *T. ponticus*), Commerson's Dolphins (*Cephalorhynchus commersonii*), False Killer Whales (*Pseudorca crassidens*), Harbor Porpoise (*Phocaena phocaena*), Killer Whales (*Orcinus orca*), Pacific White-sided Dolphins (*Lagenorhynchus obliquidens*), Short-finned Pilot Whales (*Globicephala macrorhynchus*), Spinner Dolphin (*Stenella longirostris*) and Pantropical Spotted Dolphin (*Stenella attenuata*). This population also includes two hybrids and two backcrossed animals.

<u>Species</u>	<u># of Ind.</u>
Backcross, (<i>Tursiops</i> x <i>Tt</i> Hybrid)	2
Belugas	73
Bottlenose, <i>T. gilli</i>	4
Bottlenose, <i>T. ponticus</i>	5
Bottlenose, <i>T. truncatus</i>	444
Commerson's	7
False Killer Whale	2
Harbor Porpoise	1
Hybrid, (<i>Tursiops</i> cross)	2
Killer Whale	23
Pilot Whale, Short-finned	6
Rough-toothed Dolphin	6
Spinner Dolphin	1
Spotted Dolphin	1
White-sided Dolphin, Pacific	20
TOTAL	597

The animals currently held in human care are either wild-caught, captive born or stranded animals that have been deemed unsuitable for release by the National Marine Fisheries Service (NMFS/NOAA). From the 598 individuals a total of 178 (30%) were acquired through capture, 385 (64%) were born in human care and 35 (6%) were stranded animals placed into permanent care.
